WILSON PROMISES POINCARE TO SEND MEN AND MATERIALS **UNTIL VICTORY IS ACHIEVED**

Only by Winning Can Peace Be Obtained He Says in His Answer to French President's Message.

ASHINGTON, June 14.-The American people will send men and materials "in steady and increasing volume until the forces of freedom have been made overwhelming and victory achieved.

This was President Wilson's assurance to-day to President Poincare of France, in response to the latter's message of yesterday on the first anniversary of American troops reaching France.

It is "only by victory that peace can be achieved," President Wilson declared. The President's cablegram, made public by the State Department,

and most generous spirit of friendship, and I am sure that I am expressing the feeling of the people of the United States, as well as my own, when I say that it is with increasing pride and gratification that they have seen their forces under Gen. Pershing more and more ac-

tively co-operating with the forces of liberation an French soil. "It is their fixed and unalterable purpose to send men and materials in steady and increasing volume until any temporary inequality of force is entirely overcome and the forces of freedom made overwhelming, for they are convinced that it is only by victory that peace can be achieved and the world's affairs settled upon a basis of enduring justice and

"It is a constant satisfaction to them to know that in this great enterprise they are in close and intimate co-operation with the people of

Message to Telegraph Companies Declares Co-Operation Vital to War.

WASHINGTON, June 14.-Evidence that President Wilson intends to see that the recommendations of the National War Labor Board are followed to the letter was seen to-day in the text of his communication to the heads of the two great telegraph companies asking that they accept the Board's findings in their controversy with their employees.

The fact that the President had personally taken up the case became known last night with the announcement of Clarence H. Mackay, President of the Postal Telegraph Company, that his company would Gen. Bundy and Gen. Bullard and a walve its right to discharge men who have joined a union and the statement that Newcomb Carlton, President of the Western Union, would send his answer Monday.

The War Labor Board's decision in the case was that the men should be permitted to join unions.

The President's letter to the telegraph heads, made public to-day,

"My attention has been called to the fact that the National War Labor Board, after a careful consideration of the questions at issue between the talegraph companies and their em-Blow-Up in Plant Near Pilsen ployees, have arrived at a decision, the essential points of which are embraced in the following:

"L. The employees have a right to join a union if they so desire, and men discharged for joining the union should be reinstated.

"2. The company should not be required to deal with the union or to recognize.

be recognized in presenting griev-"4. Where employees and employ

ers fail to agree the question in disgute should be determined by the of others, have been acquitted here of National War Labor Board. "h. The Telegraphers' Union should German residents are constantly trying to force the arrest of British and Ameri-

didier to Thierry - Americans Celebrate Anniversary of Arrival in France With Victory. PARIS, June 14.—Practically a complete hold-up of German attacks on the entire front from Montdidier to Chateau-Thierry s indicated in to-day's announcement by the French War Office.

Paris Reports Practically a Complete

Checking of Germans From Mont-

It has taken just five days to halt the drive which began on Sunday between Montdidier and Noyon, with Compiegne as its objecwith gas shells this morning. One American unit suffered several casual- tive. During these five days Foch has struck back three timesfirst at Mery, below Moutdidier; then in the centre above Compiegne, and finally on the right of that front, where the Germans were hurled back across the Matz River. Their withdrawal below

in their intense attacks between the Aisne and the Villers-Cotterets Forest have gained nothing of importance. The War Office announcement to-day says there was artillery fighting last night between the Forest of Villers-Cottorets and Chateau-Thierry (which included the sector held by American troops). A German attack WASHINGTON, June 14.-Gen. Pershing in his communique last near Antheuil, west of the Oise, north or Complegne, was completely

the Oise merely straightened kinks in the line, while the Germans

There was a local action north of Grivesnes (four miles northwest tured the last of the German positions in the Belleau, taking fifty prisoners of Montdidier). A French raid in the Courcelles region, five miles southand a number of machine guns and trench mortars, in addition to those on west of Montdidier, resulted in the capture of 30 prisoners. At the Ferme des Loges the French progressed.

American troops whose brilliant military qualities are mentioned of more than one and one-half miles on the line Belleau-Bouresches. daily in despatches from the front are given unstinted praise in the newspapers of Paris. They celebrated the anniversary of the arrival of the first American contingents in France by meeting a powerful German attack on a difficult sector and inflicting sanguinary losses upon the enemy. Dominary-Baroncourt, northwest of Metz. All our machines have PARIS LOOKS ON DRIVE AS FAILURE.

The position of the latest German effort after five days of fighting is described by a General who has just arrived from the front as follows: "The German got a skinful."

Military commentators here are unanimous in reporting one more German failure. The enemy has won a strip of territory not without value but has sacrificed for it precious divisions without at any point attaining his objective and without bringing him any nearer a decisive result. Such is also the opinion of Henri Bidou and Col. de Thomasson, who would be the last person to hall a victory prematurely.

Probably for the purpose of drawing Allied reserves to the right flank, the Germans started a big diversion with five divisions (approximately 70,000 men) in the vicinity of the Forest of Allers-Cotterets, ob-Cunarder Reported Breaking Up taining a foothold in Coeuvres, eight miles southwest of Soissons, a maximum advance of a mile, but this in no way bettered their positions. The French resistance was so stubborn the Germans could not reach their
